Die mitgelieferten Dübel sind für folgende Untergründe geeignet: Beton, Vollsteine, Lochsteine, Hohlblocksteine. Bei abweichendem Untergrund ist das Befestigungsmaterial entsprechend auszuwählen.

The wall plugs supplied are suitable for the following sub-surfaces: Concrete, solid brick, ventilating brick, hollow concrete blocks. If there is a different subsurface, select an appropriate fixing material.

Les chevilles comprises dans la livraison sont adaptées aux supports suivants: béton, brique, pleine, pierre percée, parpaing creux. En cas d'écart avec le support, veuillez sélectionner le matériau de fixation correspondant.

Bei nicht vorschriftsmäßiger und/oder nicht fachgerechter Montage wird bei Personen- und Sachschäden keinerlei Haftung übernommen!

No liability shall be assumed in the event of personal or material injury arising from improper and/or incorrect assembly.

Nous déclinons toute responsabilité en cas de dommages corporels et matériels occasionnés par un montage non conforme aux instructions et/ou non exécuté dans les règles!
